CAREER OBJECTIVE:

Frontend Developer with proven experience at Youth India E-School helping them to create and maintain a better code base for reusability. Capable of continuous learning from senior developers while still nurturing Junior Developers. Experience in driving projects forward as the development team leader. Passionate about learning and development with a desire to apply skills to a large development team at your company.

PROFESSIONAL WORK EXPERIENCE:

Youth India E-School   **Bhubaneswar, Odisha, India**
Frontend Developer   January 2022 - April 2022

- Developed the frontend of the website with React, TailwindCSS, APIs, React contexts, and CSS.
- Managed a team consisting of 5 people. Managed their workflow. Assigning them tasks and if they face any problems then helped them to fix that.
- Combined all the website codes to a single Github repository, which were developed by teammates in their personal GitHub repositories and fixed their bugs.
- Organized the folder structure of frontend codes and taught the teammates who were having problems pushing their codes to their branch.
- Debugged the website code to fix mistakes in the code to make sure they are error-free.
